Professional Summary

- Full Stack MERN Developer with hands-on experience building responsive web applications using React.js, Node.js, Express.js and MongoDB. Experienced in developing custom server-side APIs, database integration, authentication, Firebase services, Cloudinary media uploads, Git/GitHub and deployment. Built a full-stack Todo application and an e-commerce store with separate customer and admin interfaces.

Objective

CAREER OBJECTIVE Detail-oriented Full Stack Developer specializing in the MERN stack. Looking for a Junior Developer role to apply skills in building RESTful APIs, responsive React.js frontends, and MongoDB database architecture. Proven ability in Git, JWT authentication, and Agile workflows. Aiming to contribute to high-impact projects while advancing as a professional software engineer.

- Apex Group of Colleges Gujranwala** 2022-2024
Intermediate (FSc. Pre-Engineering)
746/1100
- University of Agriculture Faisalabad** 2024- Ongoing
Bachelor of Science in Information Technology (BS IT)
2.88

Skills

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive UI/UX
- Database: MongoDB, Firebase Firestore
- Backend: Node.js, Express.js
- Authentication & Cloud: Firebase Authentication, Firebase Storage, Cloudinary
- Development: MERN Stack Development, Full Stack Web Developmen
- Tools & Deployment: Git, GitHub
- Time Management
- Communication Skills
- Management and Leadership Skills
- Problem Solving
- Debugging
- Team Collaboration
- MS Word
- MS PowerPoint
- MS Excel
- Code Review

Experience

- Codev Software House** 13 April 2026 - 13 July 2026
MERN Stack Development
MERN STACK DEVELOPER
- Developed and maintained 4+ full-stack web applications using MongoDB, Express.js, React.js, and Node.js
- Built RESTful APIs and integrated JWT authentication for secure role-based access

Projects

- **E- Commerce Store ____ Full Stack MERN**

- Built a complete e-commerce application with separate customer-facing frontend and admin side panel.
- Developed the backend using Node.js and Express.js and connected MongoDB for application data.
- Implemented product and image management using Cloudinary for media uploads.
- Created customer-side shopping functionality and admin-side store management functionality.
- Used React.js for responsive interfaces and integrated frontend with the custom server APIs.

- **Todo Application ____ Full Stack**

- Built a full-stack task management application with add, edit, update and delete functionality.
- Developed a custom Node.js and Express.js server with MongoDB for persistent todo data.
- Implemented user authentication and user-specific task management.
- Built the frontend with React.js and created a responsive user interface.

- **Portfolio Website ____ React.js**

- Developed a responsive personal portfolio showcasing projects, technical skills and contact information.
- Deployed the website using Vercel.

Certification And Training

- MERN Stack Development Course
Saylani Mass IT Training (SMIT), Faisalabad
- MERN Stack Development – Training Program 3 Months
Codev (Software House)

Interests

- Open Source Development
- UI/UX Design
- Cloud Computing & DevOps Tools
- Competitive Programming
- Responsive Web Development
- Building side projects with React.js and Node.js

Languages

- English - Fluent
- Urdu - Native
- Punjabi - Mother language
